

Justice, Justice We'll Pursue

Come every Jew of conscience
and help me sing this song
where people fight for what is right
is right where we belong
Justice, justice we'll pursue.
Which side are you on?

My grandma went to Palestine.
She did it to survive.
But I don't want a homeland built
on shattered Arab lives.
Justice, justice we'll pursue.
Which side are you on?

My daddy was a socialist,
he walked the picket line,
and I fight for equality
in Israel-Palestine.
Justice, justice we'll pursue.
Which side are you on?

My parents taught me all for one
and that means one for all.
No demolitions, mass arrests,
no separation wall.
Justice, justice we'll pursue.
Which side are you on?

My zayde died at Birkenau.
They burned him in the flames
and I won't stand for massacres
committed in his name.
Justice, justice we'll pursue.
Which side are you on?

No one ever told me
but now I understand
there was no land without people
for my people without land
Justice, justice we'll pursue.
Which side are you on?

The things that Israel's doing
are tearing me apart.
To boycott, sanction and divest
will ease my aching heart.
Justice, justice we'll pursue.
Which side are you on?

My cousin she made aliyah
she thought it joyful news
but Salwa lives in Dheisheh Camp
without the right to choose
Justice, justice we'll pursue
Which side are you on?

Don't offer me an unearned place.
You know I will refuse
til birthrights are for everyone
and not only for Jews.
Justice, justice we'll pursue
Which side are you on?

We've been used as middle agents
debt collectors for their wars
and then set up as scapegoats.
We won't do it anymore.
Justice, justice we'll pursue.
Which side are you on?

Let's end the occupation
and start to heal our wounds
in gardens watered by our tears
where everybody blooms.
Justice, justice we'll pursue.
Which side are you on?

It's not a war of self defense
not Muslims versus Jews
their lives and our integrity
are what we stand to lose.
Justice, justice we'll pursue
Which side are you on?

The promises of generals
are written in the sand
we need a brand new promise
for our broken promised land.
Justice, justice we'll pursue
Which side are you on?

My homeland is humanity,
my country where I fight.
Unto every nation be,
a portion of its light.
Justice, justice we'll pursue
Which side are you on?

Oy, oy, oy, oy...
Oy, yidden can you stand it?
Oh, tell me how you can?
Peace will only come through justice,
working hand in hand.
Justice, justice we'll pursue
Which side are you on?

Don't fall for propaganda
don't let free speech be banned
come raise a Jewish voice for peace
that nothing can withstand.
Justice, justice we'll pursue
Which side are you on?
